Specializing in Soil Auditing and Nutrient Balancing, Nitrogen Testing and Recommendations, Crop Diagnostics, Insect Management, GPS Mapping, Yield Data Processing, Variable Rate Populations

**FEES:**

1. Soil Analysis Service	\$5.95/Ac	Accurate soil sampling and zone management map. Complete soil analysis: Major and minor fertility elements. Fertilizer recommendations: kind and amount. Crop diagnostics.
2. Nitrogen Testing	\$60.00/Sample	Spring soil Nitrate and Ammonia test. Nitrogen recommendations: kind and amount.
3. Stalk Nitrate Sampling	\$60.00/Sample	Fall stalk nitrate analysis to evaluate current season nitrogen utilization.
4. Tissue Testing	\$60.00/Sample	Plant tissue test to analyze plant nutrient levels prior to grain fill. Foliar recommendation as needed.
5. Crop Scouting/ Aerial Imagery	\$7.00/Ac	13 aerial images throughout the season detecting and ground truthing weed issues, weather damage, disease outbreaks, insect infestations and yield estimates.
6. Soil Health Test	\$100.00/Sample	Soil Health Analysis
7. Variable Rate Nitrogen or Planting Population maps	\$1.00/Ac	Variable rate nitrogen maps and/or planting population maps made from CEC zones derived from yield data.
8. Manure Analysis/Water Testing	\$60.00/Sample	Analysis of Manure and water samples.
9. Full Consulting Package	\$15.50/Ac	Options 1- 8 used on all acres.
