Specializing in Soil Auditing and Nutrient Balancing, Nitrogen Testing and Recommendations, Crop Diagnostics, Insect Management, GPS Mapping, Yield Data Processing, Variable Rate Populations

AGRONOMY FEES:

1. Soil Analysis Service	\$6.50/Ac	Accurate soil sampling and zone management map. Complete soil analysis: Major and minor fertility elements. Fertilizer recommendations: kind and amount. Crop diagnostics.
2. Nitrogen Testing	\$75.00/Sample	Spring soil Nitrate and Ammonia test. Nitrogen recommendations: kind and amount.
3. Stalk Nitrate Sampling	\$75.00/Sample	Fall stalk nitrate analysis to evaluate current season nitrogen utilization.
4. Tissue Testing/analysis	\$75.00/Sample	Plant tissue test to analyze plant nutrient levels prior to grain fill. Foliar recommendation as needed.
5. Crop Scouting	\$7.00/Ac	Bi-weekly crop scouting
6. Soil Health Test	\$125.00/Sample	Soil Health Analysis
7. Variable Rate Nitrogen or Planting Population maps	\$1.00/Ac	Variable rate nitrogen maps and/or planting population maps made from CEC zones derived from yield data.
8. Manure Analysis/Water Analysis	\$75.00/Sample	Analysis of Manure and water samples.
9. Full Consulting Package	\$15.50/Ac	Options 1 - 8 used on all acres

APPLICATION FEES:

- | | |
|----------------------------|---|
| 10. Chemical application | \$5.00/acre |
| 11. Corn fungicide at VT | \$7.50/ac
(applicators equipped w/reichhardt steering system) |
| 12. Fertilizer application | \$5.00/ac - blanket spread; \$7.50/ac - VRT spread |
| 13. Lime application | \$5.00/ton (\$5.00/ac minimum) |
| 14. 11 row sidedress bar | \$2.50/ac |
| 15. 15 row sidedress bar | \$3.50/ac |
| 16. 23 row sidedress bar | \$4.50/ac |
| 17. Custom sidedress bar | \$10.00/ac (coulters or y-drops)
(applicators equipped w/reichhardt steering system) |
| 18. Cover crop seeding | \$12.50/ac
(applicators equipped w/reichhardt steering system) |
